San Miguel, Buenos Aires, Argentina | Age 20

PROFESSIONAL PROFILE

Computer Engineering student at UADE, with 11 completed courses and an overall average grade of 9. I currently have experience in technical support and in developing and maintaining web applications for the Argentine Army, working with PHP and Laravel. I also use Python, C, HTML, CSS, Git, and GitHub. I am seeking a junior backend or web development opportunity where I can continue to grow and contribute analytical skills, commitment, and continuous learning.
